Dear Client,

Exceeda is moving ahead! We are very excited to announce the addition of new services, people and locations. Our services now include the "Lean Small Office Suite" and expansion into "Six Sigma Training". With these new services we welcome our new team member and have expanded our geographical reach to Virginia and Florida.

Introducing the Lean Small Office Suite

We are pleased to introduce our newly designed business solution. We have taken three fundamental lean tools and grouped them into a suite of products specially designed and priced for the small office of 10 or fewer employees.

1. **6S Workplace Organization** - does your office have stacks of paper piled on every surface, cluttered workspaces and obsolete equipment and material? It is time for you to get organized!
2. **Standardized Work** - do you want to boost productivity and efficiency while reducing errors? Standardize your work!
3. **Outlook Optimization** - are you suffering from information overload? Has email become a big productivity drain in your business? We can teach you how to use Outlook effectively!
